

Headphone/Headset Storage Case

Durable device protection

It is important to protect your device investment. Developed as an easy and convenient must-have for transferring and storing headphones and headsets.

- The rigid exterior protects devices, as well as keeps your equipment clean.
- A convenient built-in opening at handle allows for adding a padlock for additional peace of mind.
- Storage case has plenty of space to position your devices nicely, depending on audio device models and size, the case can hold up to 30 headphones or headsets.
